# Dr. Nichols' Wrought Iron Furnace.

SILVER MEDAL AWARDED AT THE MASS. CHARITABLE

MECHANICS' ASSOCIATION FAIR, AT BOSTON, 1874.

[Patented March 28, 1871.]

*The question of properly heating and ventilating houses is one of such vital importance in a sanitary as well as an economical sense, that no one can afford to disregard the merits of such an heating apparatus as will obviate the danger users of Cast Iron Furnaces are subjected to in the continual leakage of poisonous gas and dust, for it is impossible to construct furnaces of cast iron and secure impermeability to gases.*

*The many points of superiority in the form of construction, as invented by Dr. James R. Nichols, Editor of Boston Journal of Chemistry, are apparent, and appeal at once to the common sense of the purchaser, for this Furnace does away with all the serious objections which have existed against hot air furnaces, and its sanitary advantages are such as to commend it to the attention of all intelligent houseowners and heads of families.*

*The pamphlet, containing matter of interest to users of Hot Air Furnaces, will be furnished upon application.*

# PREFACE.

---

THE fourth number of the Directory shows a large increase in the number of names, indicating that the growth of the city during the last two years has been considerable, and far greater than the present stagnation in business and population would lead one to expect. This growth is of a permanent character, and the steady increase can undoubtedly be expected to continue in much the same ratio for many years.

In anticipation of the early annexation of a portion of Watertown the canvass for the Directory was extended so as to include many of the residents of the territory soliciting annexation.

Attention is called to the large number of Boston addresses—there being more than a thousand—which are given in connection with the names, and which constitute a Boston Directory, so far as the names of Newton people doing business in Boston are concerned. This matter is obtained at a very considerable expense, it being found necessary, in order to make the information reliable, to make a special canvass for the purpose in Boston; and it is hoped that it will be found of sufficient value to justify the labor spent upon it.

The miscellaneous department will be found to be unusually full, and the city record is a new feature which will recommend itself to those having occasion for the information contained in it. The city government is given for 1874, as well as for the present year; and will be continued in the future for any year in which the publication of the Directory may be omitted, in order to keep the record complete till such time as the work shall become an annual publication.

You will find, also, maps of all estates located in the city and the greater part of those in the immediate vicinity. Also, large maps of the Counties and States.

I propose to offer unusual facilities for those wishing to buy or sell for ascertaining locations, sizes, and values of Real Estate. A specialty is made of handling large estates, either as investments or for speculations. My rooms are very spacious and well lighted, with every facility for the accommodation of patrons. With the aid of several assistants to collect and give the desired information, I hope to be able to accommodate and satisfy all those who may give me a call. **PUBLIC SCHOOLS.**

The public schools of Newton are intrusted to the care and direction of a board of school committee, consisting of fourteen members, twelve elected at large; the Mayor and Chairman of Common Council, *ex-officio*. Each ward is represented in the board by two members. There is also a superintendent, elected annually by the board, who, under the direction of the school committee, is required "to have supervision of all the public schools, to attend to the classification of scholars, and, as far as practicable, to equalize the attendance and promote unity and harmony in the studies, progress and mode of instruction."

The schools are graded, as far as practicable, throughout the city, there being one high school, eight grammar schools, and as many primary schools as the number of children in the several districts requires.

The full course of study in the high school requires four years, in the grammar schools six years, and in the primary schools three years. Children are admitted to the primary schools at the age of five years; consequently, those who pass through all the grades will be in the schools thirteen years. Thus the city provides school privileges for all her children from five to eighteen years of age.

At the beginning of each school year, pupils who are qualified are advanced from a lower to a higher grade.

The course of study and the books used in each grade are prescribed by the school committee, and are the same throughout the city.

The condition and character of the schools of Newton are, and well may be, the pride and glory of the city. The noble buildings, recently completed, bear honorable testimony to the intelligence and liberality of the citizens. In 1874 the city, on recommendation of the school committee, appropriated \$77,000 for the support of schools during the current year, for incidentals \$17,000, for the support of evening schools \$1,000, for evening drawing schools \$2,000, for conveyance of pupils to high school \$1,000, and for text-books furnished pupils \$300, to be expended under the direction of the school committee, making the entire appropriation for school purposes, for the year 1874, \$98,300. The whole number of children in the city, between five and fifteen years of age, May 1, 1874, was 2,763, and a large percentage of this number are in the public schools.

The school year consists of forty weeks, divided into two terms of twenty weeks each, as nearly as may be, as follows:—

First Term, to begin the first Monday of September, and to continue until the last Friday in January, with a recess during the week of the annual Thanksgiving, and from Christmas to New Year's day inclusive.

Second Term, to begin the Monday following the last Friday in January, and to continue till the last Friday in June, with a recess during the week of the annual Fast.

## WEST NEWTON ENGLISH AND CLASSICAL SCHOOL.

## BOARD OF INSTRUCTORS.

*Principal*.—Nathaniel T. Allen.

*Associate Principals*.—James T. Allen, Joseph A. Allen, Geo. E. Allen.

*Private Tutor*.—Phineas Allen.

*Modern Languages*.—Annie M. Kittredge.

*Drawing and Painting*.—Evelyn Purdie.

*Assistant Teachers*.—Ella F. Searle, Anna L. Boyden.

*Instrumental and Vocal Music*.—L. R. Goering, Laura C. Barnes, Nellie B. Allen.

*Dancing and Deportment*.—Mrs. C. N. Allen.

This School was established in 1854, by Nathaniel T. Allen, and the late Rev. Cyrus Pierce; and consists, as from the beginning, of pupils of both sexes, a large proportion of whom are from abroad, and reside in the families of the Principals.

It is believed that this union of the sexes in family and school conduces, under proper management, to a better moral development, and offers a more healthy mental stimulus, than the education of either sex alone; and this view is held by many of the most intelligent thinkers and educators of the present day.

In all the departments it is the object, by the use of methods adapted to each age and every capacity, to impart clear and exact knowledge, to teach things rather than words, to exercise and discipline all the powers of the mind, and to give a harmonious development to the whole nature,—*body, mind, heart and will*.

Lectures are given, on Physical Culture and the Laws of Health; and the pupils receive systematic drill in Gymnastics. There is in the school-yard a gymnasium, well supplied with all the usual apparatus; and further variety of amusements and exercise is found in the bowling-alley, ball-ground, and abundant opportunities for boating and swimming, as well as for foot excursions through the various villages of Newton and the delightful surroundings, accompanied by a teacher.

To the family pupils especially are offered all the advantages of a large school, with the stimulus of many competitors in class-studies; while by separating them into the several families of the Principals, the evils of an overgrown establishment are avoided, and, from the limited numbers accommodated in each household, the scholars have the advantages and comforts, with the personal attention and careful discipline, of a well-ordered home.

In general, by rigid discipline, wise training, and careful culture of all the powers, with reference to individual peculiarities and needs, it is the aim to educate the pupils to a useful citizenship, a single-hearted patriotism, and a truly noble manhood and womanhood.

THE NEW ENGLAND CONSERVATORY OF MUSIC was established in February, 1867, by its present director, after an experience of several years in conducting similar institutions elsewhere, and a critical personal examination of the methods pursued at the most celebrated schools of Europe.

Its leading aim has been to broaden the area of musical culture in this country, by furnishing the instructions of the best masters, with the greatest number of collateral advantages, at the lowest possible cost to pupils. Although, in common with all new enterprises, it encountered its due share of opposition at the outset, it has so far established itself in the popular favor, that at the present moment it is beyond contradiction *the largest music school in existence*. TWELVE THOUSAND pupils have availed themselves of the benefits of its classes since its establishment, and its average attendance for five years, ending July, 1874, has been 672. This unparalleled success has led to the establishment of other Conservatories all over the land, no less than fifty being now in existence. The New England Conservatory of Music has, however, triumphantly maintained its rank and prestige, and its numbers are undiminished by competition. The reasons are obvious. No other institution of its kind in America can present such an array of instructors, among whom are many of the best known and most eminent artists in their several departments, of the present day. The spirit of emulation excited by the association of pupils in its classes; the various free public exercises which are given daily; the musical atmosphere attendant upon the assembling of so many teachers and pupils; all have contributed to render study in the Conservatory not only profitable but attractive. The large attendance also enables the Director to place at the disposal of its patrons many valuable opportunities which otherwise would have been impossible.

In addition to the regular lessons in the different departments,

## FACULTY.

*President*, Rev. ALVAH HOVEY, Professor of Theology and Christian Ethics.

Rev. HEMAN LINCOLN, Professor of Church Polity, Homiletics, Pastoral Duties.

Rev. SAMUEL L. CALDWELL, Professor of Church History.

Rev. OAKMAN S. STEARNS, Professor of Biblical Interpretation, Old Testament.

Rev. EZRA P. GOULD, Professor of Biblical Interpretation, New Testament.

*Librarian*, Rev. HENRY J. RIPLEY.

The Newton Theological Institution was incorporated on the 22d of February, 1826, and has, therefore, been in operation more than forty-six years. It has a beautiful location in Newton Centre, on the summit of a hill which commands an extensive view of the surrounding country. It has three public buildings, one of stone, and two of brick, besides the mansion house purchased with the estate. The Library of the Institution numbers about twelve thousand six hundred volumes, selected with much care. The Reading Room is furnished, chiefly by the students themselves, with the best periodicals of the day. The Board of Instruction consists of five professors, filling the chairs of Biblical Literature, Christian Theology, Church History, Homiletics, and Pastoral Duties. The regular course of study occupies three years, and is specially adapted to the wants of Graduates from College, and to others who have a good knowledge of the classical languages ; but students whose circumstances do not admit of their prosecuting the regular course are admitted, under the advice of the Faculty, to a partial course selected from the former. The Institution was founded, and has been sustained, by members of the Baptist denomination ; but it is open to young men of any evangelical persuasion, who are called to the work of the Christian ministry. There is no charge for tuition, or the use of rooms ; and many of the students' rooms are comfortably furnished by the liberality of neighboring churches.

This Library, though located east of the geographical centre of the town, is convenient of access to all the villages, and is superior in its appointments to any Library in the State in proportion to the population of the town. It was built, furnished, and has been maintained thus far, through the liberal contributions of Citizens. No aid from the town has ever been received. It now contains over 10,000 volumes, to which additions are constantly being made.

A reading room is also maintained, in which are to be found the leading newspapers and periodicals of the day.

The average circulation is 47,000 volumes per annum, or 150 per day; about fifty per cent. of which is in the village of Newton, and the remainder distributed to all parts of the town.

All the privileges of the Library are free to the entire population of the town, under the rules and regulations common to free Libraries. Any person who shall pay into the treasury ten dollars or more, becomes a member of the corporation, and entitled to the privilege of voting and holding office.

The number of persons registered as having received cards of circulation, is 4,100.

## NEWTON ATHENEUM.

(Organized 1849).

*Washington Street, corner Cherry, West Newton.**President.*—Rev. W. M. Lisle.*Vice President.*—Chas. Robinson, jr.*Secretary.*—E. D. Hinckley.*Treasurer.*—Edward P. Bond.

*Directors.*—A. E. Royce, D. C. Sanger, V. E. Carpenter, C. S. Phillips, N. T. Allen, I. Lombard, jr., E. W. Wood.

This institution was established in December, 1849, both as a library association and as an organization for the promotion of liberal culture and good-fellowship in the town. It numbers among its founders the late William B. Fowle, Horace Mann, Joseph S. Clarke, Cyrus Peirce, Dr. J. H. Brown and J. W. Plimpton, besides many still living, to whose active labors much of its prosperity and success are due.

The library is owned by a corporation (the par value of the shares being ten dollars), but any inhabitant of Newton can obtain a permit from the directors giving the free use of the books. About ten thousand volumes are given out annually.

Connected with this institution, a series of weekly literary meetings has been held each winter for the past seven years.

The exercises at these meetings consist of short lectures, the reading of original and selected papers, and debates upon the topic of the day, interspersed with music, vocal and instrumental.

These exercises are, as a rule, carried on by the citizens of the place. The meetings have generally been well sustained and are very popular, the best men of the community taking part in them. As educational institutions the Athenæum Library and Literary Society are highly prized.

### NEWTON LOWER FALLS FREE LIBRARY.

(Organized 1869.)

*Newton Lower Falls.*

*Trustees.*—George White, William Wallis, William W. Jackson, S. G. Thaxter.

*Treasurer.*—William Wallis.

*Secretary.*—William W. Jackson.

*Librarian.*—Aaron R. Cook.

*Assistant Librarian.*—William Herbert Peirce.

This Library was established January 1, 1869, for the free use of the community. All persons residing at Newton Lower Falls and vicinity, may use it each day of the week except Sunday, from one o'clock to eight o'clock P. M.

The Library is supported by voluntary contributions. The gift of one dollar or one accepted volume entitles the donor to membership in the Library association. This association annually elects a board of Trustees, to whom the care and management of the Library are committed. There are now about 1700 volumes on the shelves, and it is hoped that this number may rapidly increase by the contributions of all who favor free libraries.

This Association has an excellent record, having at different times rendered such works as the "Creation," "Messiah," "Elijah," and "Hymn of Praise," in a highly creditable manner. The want of a suitable hall has prevented the Association from giving any concerts for two winters; but with this want supplied, as it soon will be, the Society may well anticipate a prosperous future.

Two exhibitions are held annually, one the last of June, for exhibiting strawberries and such other fruits as may be ripe, early vegetables and flowers, and have been very successful; all the citizens of the town being invited to exhibit and compete for the prizes offered by the society. The other is held the last of September, and is the great exhibition in which the citizens very generally show their active interest by filling to overflowing the largest hall in the city with the products of their farms and gardens. This exhibition closes with a members' festival, which is an occasion of much social enjoyment.

Lectures and discussions are held in the different parts of the town during the winter months, at members' houses, and have been occasions of much interest and of great practical value.

**NEWTON BLACK BASS CLUB.**

(Organized, 1870.)

*President.*—William N. Bartholomew.

*Secretary and Treasurer.*—Edwin M. Fowle.

*Original Members.*—W. N. Bartholomew, Mellen Bray, Lorin F. Tyler, George S. Dexter, E. M. Fowle, M. G. Crane, Geo. C. Rand, J. F. C. Hyde, R. R. Bishop.

Five years ago, a few gentlemen belonging to Newton Centre, leased of the Commissioners of Inland Fisheries, Wiswall's or Baptist Pond, situated at Newton Centre, for the term of twenty years, for the purpose of propagating and growing black bass.

By the terms of the lease, the club have the exclusive right to fish in the pond but no fishing at any season of the year will be allowed for the first three or four years. After that, when the bass shall have become grown, the members will fish, and such others as may obtain permits of the proper officers. The fine for trespassing on this pond or other ponds, so leased, is large. An annual rent will be paid to the city; and, at the end of nineteen years, the pond will be left well stocked, and no one, not even members of the club, will be allowed to fish the twentieth year, that at the end of that time the public may have good fishing.

One hundred bass, varying in size from one to four pounds, were put into this pond during the summer of 1870. These fish were brought from Plymouth, Mass., from ponds that were

stocked several years ago. There are now estimated to be more than 1,000,000 bass in the pond. These fish attain to good size, weighing from five to eight pounds, and are of excellent quality for the table. They are very gamey, and the taking of them affords fine sport to the scientific angler, excelled only in the taking of salmon. During June, the bass takes a fly like the salmon or trout, and when hooked, immediately goes down to a considerable depth, making the reel spin finely, but soon appears, jumping clear out of water and shaking himself to disengage the hook, but failing, goes down again. It is somewhat of the nature of an experiment to attempt the cultivation of this fish in this pond when there is no stream running in, bringing along food for the fish, and when the water is so clear as not to afford vegetable matter to feed the shiners that in turn would answer for food for the bass.

Joshua W. Wellman was installed, and remained the pastor until October, 1873, since which time the church has had no pastor. **INSTITUTION FOR SAVINGS IN THE CITY OF NEWTON.**

(Incorporated June 17, 1831.)

*Office in the Newton National Bank.*

*President.*—George Hyde.

*Secretary and Treasurer.*—E. J. Collins.

*Trustees.*—John Ward, J. F. C. Hyde, Isaac Hagar, Seth Davis, Willard Marcy.

*Committee of Investment.*—Willard Marcy, J. F. C. Hyde, Isaac Hagar.

*Members.*—Isaac Hagar, John Ward, Dustin Lancey, Seth Davis, Eben Stone, E. J. Collins, Wm. Page, J. N. Bacon, M. S. Rice, Geo. Hyde, Sewall Harding, Willard Marcy, Edward Spear, D. C. Sanger, Wm. J. Towne.

The design of this institution is to afford to those who are desirous of saving their money, but have not acquired sufficient to purchase a share in the banks or a sum in public stocks, the means of employing their money to advantage without running the risk of losing it, as they are too frequently exposed to do, by lending it to individuals who either fail or defraud them. It is intended to encourage the industrious and prudent; and to induce those who have not hitherto been such to lessen their unnecessary expenses, and to save and lay by something for a period of life when they will be less able to earn a support.

Deposits will be received as low as one dollar, and will be put upon interest.

Interest will be allowed on sums not exceeding one thousand dollars.

Deposits made at any time between the quarters ending the first Tuesdays of January, April, July and October, will not be put upon interest till the first Tuesday of the quarter succeeding the deposit.

Twice every year, namely, on the first Tuesday of January and July, a dividend of interest of three per cent. or three dollars on a hundred will be made.

Although only six per cent. is promised yearly, yet every fifth year all the extra income, which has not before been paid and divided, will then be divided in just proportion to the length of time the money has been in, according to the by-laws; and nothing will be deducted from this extra income but the actual expenses of carrying on the business and taking care of the money.

Those who do not choose to take their interest from time to time may be assured that it shall be added to their capital or sum put in, and shall be put upon interest after three months.

It is provided that depositors may withdraw their money at any time by giving the treasurer a few days' notice.

This cemetery contains about eighty-two acres, but only about one-half of it is yet under improvement. Its location is near the territorial centre of the town, and is accessible by excellent roads from every direction. The surface is undulating, and sufficiently diversified for natural beauty and artificial embellishment. It is well watered by Cold Spring brook, and only requires reasonable expenditure to carry water to every part sufficient for irrigation and to maintain ponds where nature has provided locations. The trustees and the superintendent are perfecting improvements as rapidly as the sale of lots will allow. About eight hundred have been sold, most of which are under improvement, and a large number of them have received the loved and honored of all ages and conditions, thus endearing these grounds to many families and to the community. There is a large green-house near the entrance, where shrubs and flowers can be obtained at all seasons for suitable decorations.

The system of "perpetual care" has recently been introduced and is giving great satisfaction to all. It involves the payment of about 33 cents per foot in addition to the price of lot, the income from which pays the cost of perpetual care, thus ensuring uniformity to the whole grounds and a satisfactory condition of each lot.

Lots of all sizes are ready for sale at all times, and the entire income has been, and will continue to be, used for the improvement of the cemetery.

PASSED JAN. 29, 1874.

## No. 9. AN ORDINANCE ESTABLISHING A BOARD OF HEALTH.

*Be it ordained by the City Council of the City of Newton, as follows ; Extract :—*

*Sect. 1.* The City Council shall constitute the Board of Health of the city for all purposes, and may appoint a committee or agents to act for them respectively in cases of emergency, or when such Board cannot be conveniently assembled ; such agents or committee so appointed, to have and exercise all the authority which the Board of Health has, but to report their action and be responsible to the Board of Health, as required by law.

*Sect. 2.* The owner, agent, or occupant having the care of any tenement used as a dwelling-house shall furnish the same with a sufficient *drain*, under ground, to carry off waste water, and also with a suitable *privy*, sufficient for the accommodation of all who may use it.

*Sect. 3.* All *vaults* or *privies* shall be so constructed that the inside of the same shall be at least two feet distant from the line of every adjoining lot or street, and the same shall be kept tight ; nor shall the contents of any vault be allowed to accumulate to within 12 inches of the even surface of the ground, or otherwise become offensive.

*Sect. 4.* If any owner, agent, or occupant of any land in which any vault or drain may be situated, shall *neglect or refuse to cleanse* the same, after being duly warned that the same has become offensive, he shall forfeit and pay a sum not exceeding ten dollars for every week he shall neglect or refuse to cleanse the same.

*Sect. 5.* *No vault or privy* shall be *emptied* except by parties especially authorized by the Board of Health, nor in any other mode or time than by them authorized ; and always at the expense of the owner, agent, or occupant having charge of the tenement or premises in which such vault, or privy, is situated.

*Sect. 6.* No person shall suffer any waste or *stagnant water* to remain in any cellar, or upon any lot or vacant ground, by such person owned or occupied.

*Sect. 7.* Whenever, upon due examination, it shall appear that the *number of persons occupying any tenement* or building in the city is so great as to be the cause of nuisance or sickness, or the source of filth, or that any tenement or building is not furnished with vaults constructed according to the provisions of this Ordinance, or with sufficient privies or drains, under ground, for waste water, the Mayor may thereupon issue his notice, in writing, to such persons, or any of them,

---

And if the person or persons so notified, or any of them, shall neglect or refuse to remove from and quit such tenement or building within the time mentioned in such notice, the Mayor is hereby authorized and empowered thereupon forcibly to remove them; and such person or persons so neglecting or refusing shall be liable to a fine for each and every day such neglect or refusal shall continue, as hereinafter provided.

*Sect. 8.* The Board of Health are hereby authorized to contract with suitable persons for the collecting and carrying away of the *house offal* of the city, and to sell or dispose of the same, and to make such rules and regulations in relation thereto as they may deem necessary.

*Sect. 9.* No person shall throw or put into any public place, or pond, or body of water, any *dead animal, dirt*, or rubbish whatsoever.

*Sect. 10.* *All dirt, rubbish, or filth* of any kind, in any house, warehouse, store, cellar, yard, unaccepted street, or other place, which the Board of Health shall deem injurious to the health or safety of the city, *shall be removed* by the owner or occupant of such house, warehouse, store, cellar, yard, unaccepted street, or other place where the same shall be found, within twenty-four hours, or such other time as the Board of Health shall deem reasonable, after notice in writing to that effect, served personally upon such owner or occupant, or their authorized agent, by any person competent to serve any civil process, or left at the owner, occupant, or agent's last and usual place of abode, if the same be known, and be within the State; or such removal shall be made under the direction of the Board of Health, and the expense thereof borne by such owner or occupant; and, in addition, they, or either of them, shall be liable to the penalties hereinafter provided.

*Sect. 11.* The Board of Health shall have power to regulate or forbid the keeping of *goats or swine*, when, in their judgment, such regulation or prohibition shall be deemed necessary.

*Sect. 12.* The Police Officers and Field Drivers shall take into custody any *goat or swine* running at large in the city; said goat or swine to be disposed of in accordance with the City Ordinances and the laws of the Commonwealth. Said Police Officers and Field Drivers shall cause the name of the owner of such goat or swine to be recorded, and shall, as often as once in three months, furnish the Mayor with a copy of such record, with the particulars pertaining to each case.

*Sect. 13.* No person shall drive any cart or other vehicle, containing *night soil*, or other offensive matter, and used for conveying the same, in any street between the hours of four o'clock, a. m., and ten o'clock, p. m., during the months of April, May,

June, July, August, and September; nor between the hours of five o'clock, a. m., and nine o'clock, p. m., during the months of October, November, December, January, February, and March, except by permission of the Board of Health.

*Sect. 14.* No person shall bring into the city, for sale, any diseased, putrid, stale, or **unwholesome meat, vegetables, fish, or provisions.**

*Sect. 15.* No person shall **boil, burn,** or decompose, in the city, any **bones** or other refuse parts of any neat cattle or other animal.

*Sect. 17.* Any person who shall violate any of the provisions of this Ordinance shall be liable to a fine not exceeding twenty dollars, and a like **penalty** for every day such offence shall be continued or repeated, except where otherwise herein provided.

#### NO. 17. AN ORDINANCE RELATING TO HIGHWAYS.

*Sect. 12.* No person shall break or **dig up** any part of **any street** or common in the city, without a written permit from some member of the committee on Highways or the Superintendent of Streets, or **erect any building** on any street or place, or deposit any building materials thereon, without first obtaining a written license from the Mayor and Aldermen, and complying, in all respects, with the conditions of such license.

*Sect. 13.* Every person intending to **erect or to repair any building** upon land abutting on any street in the city, shall make the same known to the Mayor and Aldermen, who shall have power and authority to allot such portion of any street thereto adjoining, as they, or some person duly authorized by them, shall deem expedient and necessary. **All rubbish** or other substance arising therefrom or thereby, shall be immediately removed by the person or persons so building or repairing, and, in case of neglect or refusal so to do, the Superintendent of Streets shall cause it to be removed at the expense of the person or persons so building or repairing, as aforesaid.

*Sect. 14.* Whenever any street in the city shall, under any license obtained as provided in the preceding sections, be obstructed, or otherwise rendered unsafe for travel, the person so licensed shall keep a suitable **railing or fence,** sufficiently lighted every night, round the section or part of any street obstructed, so long as said obstruction continues. *Sect. 18.* No person shall move, or assist in **moving any building** through any street or way in the city, unless by written permission of the Mayor and Aldermen, under such restrictions as they may see fit to prescribe.

*Sect. 19.* No person owning, or having the control of **cattle** or **other animals**, shall permit or suffer such cattle or other animals to pasture upon any street or way in the city of Newton, either with or without a keeper.

*Sect. 24.* No person shall make, or cause to be made, any aperture in or under any street or sidewalk for the purpose of constructing *coal-holes*, or receptacles for any other articles, or for light and air, or for any other purpose, without the license of the Mayor and Aldermen; and no person shall leave such coal-hole or aperture open or unfastened, except while actually in use.

*Sect. 28.* No person shall fire any *squib, cracker, serpent*, or other preparation whereof *gunpowder* is an ingredient, or which consists wholly of the same, or make any *bon-fire*, in or upon any street or wharf within the city, except by the authority of the Mayor and Aldermen.

*Sect. 29.* Any person who shall throw or put, or cause to be thrown or put, any *snow or ice* into any street in the city, except that removed from the sidewalk, shall cause the same to be broken up, and spread evenly over the surface of the street, and no snow or ice shall be thrown or put into any street, lane or

alley, or upon any bridge, contrary to the orders of the Superintendent of Streets.

*Sect. 30.* No owner or driver of any **hackney-coach, cab, carriage**, or other vehicle, shall place such hackney-coach, cab, carriage, or other vehicle, in any street, lane, or public place, to stand there for employment, without first obtaining permission from the Mayor and Aldermen.

*Sect. 31.* No person shall **drive, wheel, or draw, any coach, cart**, or other carriage of burden or pleasure, except children's carriages drawn by hand, or permit any **horse, cattle, swine**, or sheep, under his care, to go upon any sidewalk in the city; nor shall he otherwise occupy, obstruct, injure or encumber any such sidewalk so as to interfere with the convenient use of the same by foot-passengers. No person shall **stop his team or carriage**, or unnecessarily place any other obstruction, on any flagging stones laid in or across any street, lane, or alley, in the city, nor suffer his wagon, cart, sled or other vehicle to remain an unnecessary length of time on any sidewalk, or in any street, lane, or alley of the city; nor shall any person drive any vehicle upon or over any **hose-pipe** placed in any street by order of the Chief Engineer, or in use at any fire.

*Sect. 33.* The foregoing provisions shall not be taken or construed as limiting in any manner the legal rights and duties of the Surveyors of Highways to make any alterations and repairs in the streets which they may deem the safety and convenience of the inhabitants, or the interests of the city, require.

*Sect. 34.* Any person who shall offend against any of the provisions of this Ordinance shall be **liable to a fine** for a sum not less than **one dollar**, nor more than **twenty dollars**, and a like penalty for every day such offence shall be repeated or continued.

# PRINTING ESTABLISHMENT

OF

*Alfred Mudge & Son.*

Perhaps there is nothing connected with a man's business which so clearly denotes the character of his establishment as the style of his printing.

While a nicely printed card or note-heading, is an almost sure indication of business accuracy and neatness, a poorly printed, badly arranged, and incorrect piece of printing is too often an index of slovenly business habits.

The well-known Printing House of Alfred Mudge & Son was

established by the senior member of the firm in 1831. They stand confessedly in the front rank of commercial job-printing houses; and by constant addition of new type and presses, and the employment of the most skilled workmen in every department, they are determined to maintain the position they have held for so many years.

Law Work a specialty.

Some of the most particular men in Boston are their customers.

# ROGERS UPRIGHT PIANO.

**BARNABEE & WINCH,**  
 GENERAL AGENTS,  
 No. 3 Bedford Street, - - Boston, Mass.

It is conceded that the Upright Piano Forte, from its compactness of form, volume of tone, and superior elegance as an article of parlor furniture, is destined to be the

## Future Piano of America.

The obstacles heretofore attending the manufacture of this form of instrument have been the liability to get out of order, and the difficulty of keeping it *in tune*.

After years of patient investigation and unremitting toil, these obstacles have been triumphantly surmounted, and the ROGERS UPRIGHT PIANO is the result. This Piano is

### CONSTRUCTED ON ENTIRELY NEW PRINCIPLES.

The Plate is the only single solid iron one in use that does not require support at the back by timbers, as in other Upright Pianos. They are strung and tuned before being placed in the case.

Special attention is called to the PATENT TUNING ARRANGEMENT, which consists of metallic levers and set screws, [all fastened to the iron frame,] in place of the wooden pin block, which is used in all other Pianos.

The touch is delicate and well defined. The quality and quantity of tone are all that can be desired, being superior to any Square Grand. The Damper is controlled directly by the pedal, without levers.

The Mechanism being simple, the durability of the instrument is *unquestionable*.

At the exhibition of the MASSACHUSETTS CHARITABLE MECHANICS ASSOCIATION, held in October, 1874, the HIGHEST AWARD was given the ROGERS UPRIGHT PIANO over all competitors, and in view of the fact that this Association is one of the most critical in the country, we feel it to be a great honor.

In presenting these Pianos, with all these vital improvements, to the public, the Company have the assurance of leading musicians and the press that they are supplying a want that has long been felt.

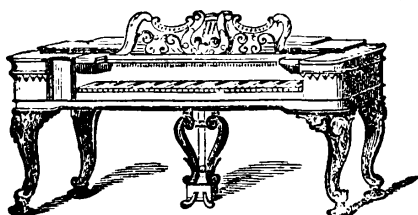

Manufactured by THE ROGERS UPRIGHT PIANO CO.
